3. WiFi Connected Successfully

- When user is successfully connected to WiFi, it will show connected under SSID name.

Troubleshooting Tips

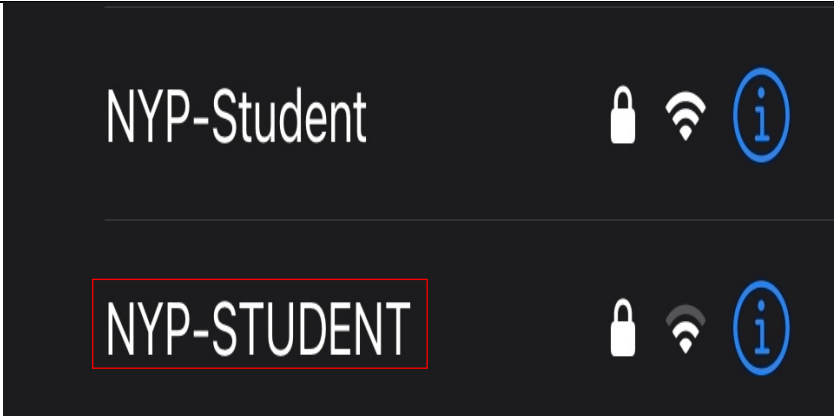

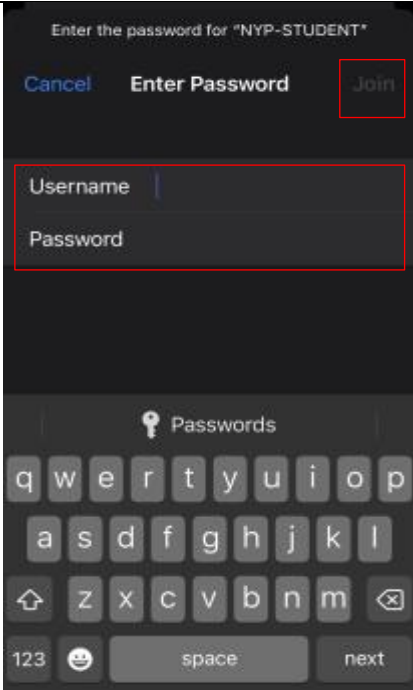

Forget a network, so Android Phone doesn't join it automatically: Choose Wi-Fi and tap next to a network you've joined before.

Then tap "Forget this Network." Reset the network settings on iPhone: Choose Settings > General > Reset > Reset Network Settings.

2. Configuration Guide for iPhone

*Screen base on iOS 16.1.1 and above installed, another version of iOS may differ.

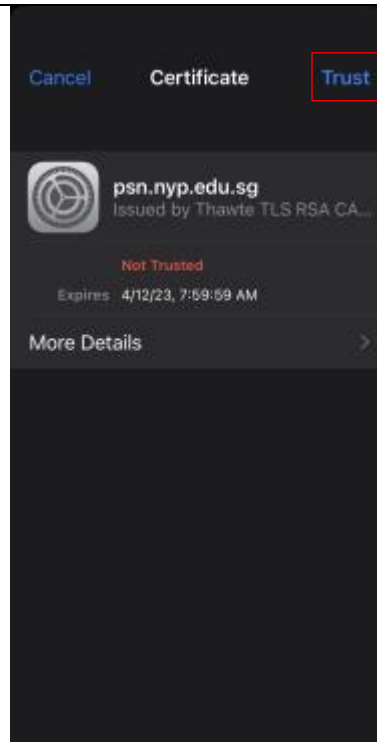

Student credential is student portal username and password.

1. Connect to NYP-STUDENT WiFi network - From your Home screen, go to Settings > WiFi. - Turn on WiFi. Your device will automatically search for available WiFi networks. - Tap on the SSID: NYP-STUDENT	 The screenshot shows the iPhone's 'Settings' app, specifically the 'WiFi' section. The 'NYP-STUDENT' network is highlighted with a red box, indicating it has been selected for connection. The status bar at the top shows the time as 1:51 and the battery level at 100%.
2. Enter User Credentials - Enter Username and Password - Click “Join” (Note: Join button will be available once user enter credential.)	 The screenshot shows the 'Enter the password for "NYP-STUDENT"' screen. The 'Join' button is highlighted with a red box. Below the title, there are two input fields: 'Username' and 'Password'. The 'Join' button is located to the right of the 'Enter Password' field. The keyboard is visible at the bottom of the screen.
